Trappers, land owners oppose policy

Land owners' rights seen as eroded by establishment of four fur areas

Local land owners and trappers have made it clear that they don't like a new fur management policy imposed by the Ministry of Natural Resources.

At a public meeting in Haliburton last Thursday night, close to 100 people heard Minden MNR employees Dave Atkinson and Eric Mitchell explain the reasons behind the policy, which will divide the county into four fur management units and limit the number of resident trappers who can operate in each area.

Mitchell said the policy is being imposed across the province in a bid to reduce problems of over harvesting and intense competition for trapping rights in some areas.

"The intent of the program is to limit the number of trappers within a fur management area," Mitchell said, in outlining the policy. The number of trappers permitted in each unit has been determined by the ministry, using average figures from past years.

In Haliburton County, however, the number of trappers has been falling for the last two

years. It peaked at 345 in 1980-81 when fur prices were high, Mitchell said, and at present, there are 290 registered trappers.

Dysart reeve Murray Fearrey commented that the concept of increasing competition and pressure addressed by the new policy "Does not add up" with the fact that there are fewer trappers in the county now than there were two years ago.

Mitchell admitted that the problems which sparked the policy have occurred for the most part in southern Ontario, but said it will be adopted province wide because the ministry believes more people will turn to trapping as a form of recreation and an income supplement in the near future.

At the moment, he said, anyone who owns land in the area and has taken a Ministry trapping course can get a trapper's license, but the new policy would limit the total number of active trappers in the county.

"Part of the idea is to get good trappers trapping," Mitchell said.

Under questioning from

Fearrey, Mitchell admitted that some pressure for the new policy has come from animal rights groups opposed to the use of leg hold traps.

"They're getting stronger every year, and they're putting a lot of pressure on the trapping program," Mitchell said.

The most controversial aspect of the new policy centres on the rights of landowners. Because trappers may only operate within one fur management unit, land

owners would not have the option of allowing a trapper from another area to work on their land, even if they felt that person was the best trapper available.

Many of those who attended the meeting claimed this was a clear infringement on a land owner's control over his own property, an accusation that was not denied by the MNR representatives.

"It is going to restrict certain individuals trapping in certain private land," Mitchell said. "It's

most money they can from trapping rights, since it will take away the possibility of trappers from other units paying for access to the land.

"How can you do that to me as a landowner?" he asked. "It's my land. I pay taxes on it."

Mitchell replied that while a person may own the land, he does not own the fur bearing animals on it. They belong to the people through the Ministry of Natural Resources, and the minister has the authority to set

quotas for fur bearers and limit the number of trappers.

The questioner also envisioned a situation in which a skilled trapper might want to make a living from trapping by acquiring rights on two large tracts in different management units. Under the new policy, that would be impossible. By ensuring that rights to the tracts could not be combined, the new policy meant there would be at least two trappers on the land instead of one, the questioner pointed out.

Fish and Wildlife supervisor Dave Atkinson said "we haven't got the answer to every question. There are a lot of questions in our minds also."

"We aren't here to argue with you," He indicated that the concerns expressed at the meeting would be passed "up the pipe" to policy makers higher up in the MNR.

"It's a new thing, and we have to work on it," Atkinson said.

To the repeated claim that land owners were being shortchanged by the new policy, Eric Mitchell said "it's the trappers who will

Please turn to Page 3

MNR's balancing act fails to please...See page 4

owners would not have the option of allowing a trapper from another area to work on their land, even if they felt that person was the best trapper available.

Many of those who attended the meeting claimed this was a clear infringement on a land owner's control over his own property, an accusation that was not denied by the MNR representatives.

"It is going to restrict certain individuals trapping in certain private land," Mitchell said. "It's

most money they can from trapping rights, since it will take away the possibility of trappers from other units paying for access to the land.

"How can you do that to me as a landowner?" he asked. "It's my land. I pay taxes on it."

Mitchell replied that while a person may own the land, he does not own the fur bearing animals on it. They belong to the people through the Ministry of Natural Resources, and the minister has the authority to set

Board may close down Dorset P.S.

Dorset Public School may be phased out in June, 1985, the Haliburton County Board of Education's special projects committee has indicated.

In a report to the board, the committee said it will notify the Municipality of Sherborne et al that the school could become "a candidate for closure" at the end of the 1984-85 school year.

While the board's notice does not guarantee the school will be closed, trustees will almost certainly decide to phase it out if there is no improvement in enrolment projections. Currently there are 19 'full time equivalent' students at the school (kindergarten students attend half time), and that number is expected to decline next year.

The Dorset school is the most costly in the county to operate, at \$4000 per student, while in larger schools, the per pupil cost is about \$2500, the board was told.

Declining enrolment resulted in a 1980 decision to drop Grades 5 through 8 at Dorset and bus students to Irwin Memorial Public School in Dwight.

If the Dorset school is closed, all students would be bused to Dwight, and the Haliburton board would pay fees to the Muskoka Board of Education.

Sherborne et al trustee David Villard commented that expansion of the provincial environment ministry's Paint Lake laboratory does not appear to have improved the enrolment picture for the Dorset school because many of the new employees at the centre are settling in the Huntsville and Bracebridge areas.

Director of Education Doug Hodgson emphasized that although the special projects committee believes the school should be considered for closure in 18 months, the board could change its mind.

He noted, however, that with only 19 students at the school this year "if you had two or three families move away you would have an untenable situation."

The board indicated it would be willing to attend public meetings in the community to hear arguments for keeping the school open beyond the June 1985 deadline.

Kindergarten students from Victoria Street Public School in Haliburton brought some of the excitement of Hallowe'en to Extensicare on Friday. The youngsters sang songs, visited with 'grandmas and grampas' at the

home, and enjoyed cookies, milk and other treats to complete their party.

Service may assess alcohol problems

Haliburton County residents soon may have access to an alcohol and drug abuse assessment service through the efforts of a group of local citizens.

A Committee for Alcohol and Drug Education, with members from Haliburton, Minden and other areas of the county, has been working for the past year on ways to tackle addiction problems among local residents.

Public awareness programs aimed at parents and young people are one possibility the committee has considered as a means of preventing alcohol and drug abuse. And for those who may already have a problem, the committee may develop a confidential assessment service with help from the Addiction Research Foundation.

Pat Cavanagh, area Children's Aid Society official and spokesman for the local committee, says that while the group is not sponsored by the Addiction Research Foundation, "we have their full backing and support."

Services for alcohol and drug addiction are currently concentrated in Peterborough, Cavanagh noted, but the committee hopes that situation will change.

"We are presently doing a survey of doctors, lawyers, social services people and other individuals" to determine how often they encounter people with drug and alcohol problems, Cavanagh says.

The committee hopes to find out if there is a need for an assessment service in the community, and whether professionals would refer their patients and clients to the service if it was established.

The aim is "to get a better handle on just what is the local situation," Cavanagh says.

Information will be reviewed at a meeting November 9, and a decision made as to how to proceed.

If the survey shows that an assessment service is needed in the community, the Addiction Research Foundation would be called in to train volunteers. The service would be "a place where people could

refer people for a full assessment of a drug or alcohol problem, with specific recommendations about what should be done."

Cavanagh says that "there is a tendency, when you start talking about alcohol and drugs, particularly alcohol, for people to say 'what can you do about it anyway?'. We're saying there is something

you can do."

"We're saying intervention is possible, and at early stages," before addiction problems have become acute.

The assessment service would be both "confidential and professional," Cavanagh says.

At the moment the committee is

Please turn to Page 2

Any theories on the 'big bang'?

Hallowe'en went off with a bang in Haliburton village, but no one knows what that 'bang' was, or who made it happen.

Residents of the village were startled by the sound of an explosion that rattled windows in the village shortly after 11 p.m. There were reports of a sheet of orange flame in the area of Head Lake Park adjacent to the Information caboose, and firemen, police and other local citizens

converged on the scene.

Aside from several hundred pieces of orange paper like material and a black mark on the pavement of the main park path, nothing remained of the 'explosive device'.

Police say no one was in the area when they and firemen arrived to investigate.

There were no reports of damage from the blast.

Police news

A select traffic enforcement team, made up of Ontario Provincial Police officers from neighbouring detachments, will be operating throughout Haliburton County beginning this month.

The four officers will be concentrating on three specific goals toward reducing accidents and accident injuries:

- Spot checks will be made to detect alcohol impaired drivers. Roadside alcohol measuring devices (ALERT) and regular breathalyzer machines will be utilized.
- Sophisticated speed measuring radar devices will be used to detect speeders.
- Spot checks will be conducted as an enforcement measure to ensure drivers and passengers are wearing their seatbelts.

No firm schedule has been drawn up and the team will be appearing throughout the County at irregular times and locations.

Accidents

Two people were injured Friday afternoon in an accident that began when a car swerved to avoid a dog.

Tracy Nesbitt, 17 of Minden was travelling on Swinson Road in Lutterworth Township when she steered away from a dog and struck a tree and a stump. Initial damage was estimated at \$2000.

A second vehicle driven by Charles Walker, 22 of RR2 Minden rounded a curve and collided with Nesbitt's car, causing a further \$300 damage.

Walker's vehicle also sustained an estimated \$300 damage.

He and his passenger, Brett Ported, 19 of Minden, were taken to Minden hospital with undetermined injuries.

Isabella Moody of the Haliburton Chapter of the Order of the Eastern Star presented a cheque for \$377.24 to Haliburton hospital nurse administrator Marlene Bennett on Friday. The funds will be used for a new heart monitoring system.

Dysart council holds regular meeting

At the October meeting of Dysart et al council, the following matters were con-

sidered:

General Accounts totalling \$556,217.72, Road Accounts totalling \$52,381.54, and Social Services totalling \$8,851.23, were approved for payment.

Robert English was authorized to attend the Housing Rehabilitation Skills Training Course 2 in Ottawa, October 16 - 21, 1983, sponsored by Canada Mortgage and Housing Corporation.

The treasurer is to arrange input forms for Northern Telephone Limited in Order that 1984 interim tax accounts may be rendered at an early date.

The Reeve and Clerk will arrange the necessary documentation to convey to Mrs. Naulls, lands as laid out in a survey by Bishop and Wilson being part of Block A, Registered Plan 335, Dudley Township, approximately 40 feet at the rear of the lot with no lake frontage for the sum of \$500 plus survey and legal fees.

Council concurred with the recommendations of the Ministry of Natural Resources in allowing Lloyd Coneybeare to construct a retaining wall on his lot fronting Kashagawigamog Lake - Part Lot 7, Concession 7, Dysart Township.

Concession 8, Dysart Township.

The Reeve and Clerk were authorized to sign right-of-way agreements to the following parties over those sections of roads deeded to the Township of Spruce Lake and Outlet Bay by Halcen Holdings and/or Sherwood Developments Limited but not assumed for maintenance purposes: John Long, Vincent and Angela Gurdinck, Hendrik and Gerrie Wesselman, J.D. and Virginia Youngson, Scott Preston and Beverlee Vernon, Clement and Helen Chow.

The Reeve and Clerk were authorized to sign the agreement to allow Haliburton Kawartha Pine Ridge District Health Unit to sublease a part of their premises to the Victorian Order of Nurses - Peterborough Branch.

Council concurred with the recommendations of the Ministry of Natural Resources in allowing Lloyd Coneybeare to construct a retaining wall on his lot fronting Kashagawigamog Lake - Part Lot 7, Concession 7, Dysart Township.

Please turn to Page 8

AH&M wants answer on bridge

Much has been heard in recent months from people in the Ingoldsby area who are opposed to a proposed new bridge on County Road 18, but are more people in favour of the bridge than against it?

That question has been bothering Anson, Hindon and Minden council in recent weeks, and at a meeting last Thursday, councillors were reminded that the answer may favour the supporters rather than the objectors.

After hearing several letters on the issue, council was reminded of a petition dated February 17 of this year in which more than 80 people stated that they wanted a new bridge in the hamlet, and had an opportunity to say why they held that point of view. The petition had been presented to Haliburton County council.

Councillor Pat Burk claimed both the Echo and the Echo and the Times may have contributed inadvertently to confusion about the issue in stories that said council's county roads representative, Ed Pergolas, wanted to hear from people in the hamlet. Burk said the people who signed the petition felt their opinions had already been included in the debate.

In an effort to shed more light on plans and problems surrounding the proposed new bridge, council decided to forward the petition and all other correspondence related to the bridge to the county roads committee. Council is asking for a formal reply from the county on plans for construction. The reply will be made available to Ingoldsby residents and cottage associations on Canning and Kashagawigamog Lakes.

Mini fair to go to Gallery

Despite an objection from councillor Gary Kenney, Anson, Hindon and Minden council has agreed to give its mini fair building to the Agnes Jamieson Gallery for use as an outdoor pavilion.

Kenney told council last Thursday that he was still awaiting word from fair board president Wayne Cox as to whether the building was needed at the fair grounds, and so could not vote in favour of moving it to the Library/Cultural Centre.

But deputy reeve Ed Pergolas, who has been a critic of the structure from the outset and said earlier this month that he wanted it moved from beside the municipal building to make more room for parking, said the gallery had put forth "a concrete and solid proposal

which would help the cultural centre."

"I think we're wasting a lot of time, because it has to be dismantled and taken away," Pergolas said.

The building needs some strengthening to withstand snow load, but Kennedy estimated the work could be completed in a day.

In its new location the mini fair building would be used as an outdoor shelter for teas, craft sales and other activities associated with the gallery and cultural centre, council was told in a letter from the gallery.

A vote to donate the building to the cultural centre passed, with Kenney registering a 'nay'.

youth charged with drug offense

A Gooderham area youth has been charged with a drug offense in the wake of a police investigation at Haliburton Highlands Secondary School last Wednesday.

Timothy Scott Winder was charged after police entered a washroom at the school in which

drug offenses were alleged to be taking place.

No other students were charged as a result of the police investigation.

Winder will appear in provincial court in Minden in December to face the charge.

Life sentence imposed for murder

A 19 year old Toronto man has been sentenced to life imprisonment for the murder of another Toronto man at a cottage on Bob Lake in Anson Township.

Kevin J. Humphrey was convicted last Friday at County Court in Lindsay after he pleaded guilty to the murder of Charles Palmer, age 24.

Chamber chooses a president

Ken Langdon of Haliburton has been elected president of the Haliburton Highlands Chamber of Commerce for the coming year.

Langdon, owner of Blacks Home Hardware in Haliburton, was chosen to take over from outgoing president Rhonda Elstone at a meeting of the Chamber board of directors on Monday.

Elstone will sit on the executive

as past president.

Serving as vice president on the new executive is Jack MacGregor of Camp Kandalore in Stanhope Township.

Also on the executive for the coming year are George Schmid, owner of the Harvest Dining Lounge in Haliburton, and Emily Skinner, owner of Sandalwood Gifts in Minden and a first time member of the Chamber board of directors.

Alcohol assessment is a possibility

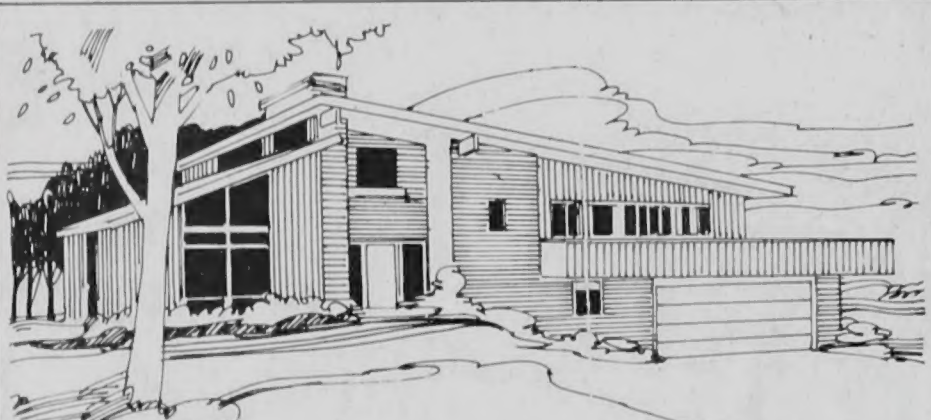

from page 1

not funded, and Cavanagh says here are no plans to seek money from any source in the immediate future. But he hopes that "down the road", money may be needed from "corporate and other sources" to help the committee carry out the assessment service and other programs aimed at public education

and awareness.

"We're hoping to bring the nature and extent of the problem to people," Cavanagh says.

Anyone interested in assisting the committee in its efforts, or who wants more information, can call Cavanagh, or Jane Heppleston at the Manpower Outreach office in Haliburton.

Questionnaires to be sent to area parents

Questionnaires designed to help board and ministry of education officials assess the local school system will be sent to parents in November.

Doug Mitchell, chairman of the local Co operative Evaluation and Development of School Systems, or CEDSS, study, says parents, teachers, administrators and board officials will be asked to complete questionnaires dealing with one or more of the four areas under study.

All parents of school aged children will receive a questionnaire on the English programme in Haliburton County. Parents with students in Grades 7 through 10 will also be sent questionnaires on the Intermediate Mathematics programme.

Questionnaires focussing on the role of the teacher and of the director of education will be distributed at random throughout the community.

Anyone interested in completing a questionnaire who does not receive one is asked to contact one of the county's schools.

Responses will be tabulated in November and December, and a report will be prepared for January. Once that has been done, a team of Ministry of Education officials will carry out their own study of the four subject areas and complete a report.

Reports of the local CEDSS committee and the ministry will be compared and a final report made available to the board of education next spring.

School use charges set

In a bid to end confusion over charges levied for the use of Haliburton County schools, board of education trustees have been copies of a revised policy on the community use of schools.

Potential users of local schools are classified into three groups. Those who fall into Group A of the policy are charged no fees for use of the schools until 8 p.m., after which a charge of \$10 is levied if a caretaker has to lock up. Included in this group are activities sponsored by the board or by groups of teachers or students connected with the school system that are non fund raising; meetings of other board employee organizations such as CUPE; general meetings of community health organizations; meetings of local groups such as minor hockey, Scouts, Cubs, Guides and Brownies; and meetings related to school board and municipal elections.

Users who fall into Group B of the board's policy must pay a \$10 fee for caretaking unless an employee of the board is part of the group and

takes responsibility for securing the building. Included in group B are: church services; student athletic games and practices not directly related to the school system; lectures and assemblies sponsored by local organizations; concerts, dances and functions sponsored by organizations on a non commercial basis; adult activity and recreational groups including square dance clubs; TOPS, etc., sponsored by other than recreational commissions; and non local teacher groups.

Those who fall into the board's Group C must pay hourly fees that vary according to the type of space required. These groups are considered to be commercial, and include dancing and music school recitals; industrial employee organizations; political meetings of a non municipal election nature; and others at the discretion of the board.

Fees for uses by Group C organizations vary from \$3 per hour to \$20 per hour. An additional charge of \$10 an hour for caretaking is levied if the activity continues after the caretaker has left.

Transfer policy clarified

In a move designed to end possible problems with parents who want to transfer their children from one school to another, the Haliburton County Board of Education has adopted a policy that says all such applications must be made in writing before the end of May in each school year.

When an application has been made, its merits will be considered in June and parents will be notified of the board's decision.

Coloured lights to brighten Minden

It should look a lot more like Christmas in Minden when the festive season arrives this year. For the first time, the community will be festooned with coloured lights.

Councillor Gary Kenney said last Thursday that the community's business improvement area board has approved an expenditure of \$5000 for lights to brighten the commercial core at Christmas.

Kenney said two permanent poles will be installed on the Gull River bridge, and a banner saying "Merry Christmas" will be hung.

Only under exceptional circumstances does the board agree to allow students who should be attending school in one community to attend school in another. And while the board noted it does not want to encourage any more applications for transfers than it already receives, the new policy is intended to clarify procedures to be followed by parents and trustees.

It was adopted by the board last Tuesday.

As well, several thousand coloured lights will be purchased from a supplier in Toronto and strung in hardwood trees on the east side of the river adjacent to the bridge.

While the initial expenditure should be enough to light up about five trees, Kenney said lights could be added in future years to decorate both sides of the river bank.

Councillor Pat Burk said Christmas music would add to the festive impression, and she was put in charge of exploring costs and feasibility of a main street sound system.

There were some pretty strange creatures walking around the halls of Haliburton high school on Friday. Here four of them take time out from a late afternoon

dance to pose for the camera. It was all part of the annual Hallowe'en fun at the school.

Three to vie for vacancy in Monmouth

Three people will contest a vacant seat on Monmouth Township council.

The three put their names forward before nominations closed on Monday at 5 p.m.

Former deputy reeve Carman Coumbs, who was defeated for that seat last November by Harry Clark, will try to regain a seat on council.

Pearl M. Foster of Tory Hill, who was also an unsuccessful candidate for a council seat last November, will be on the ballot.

Third contender is P. John Finlay, also of Tory Hill.

The seat on council was declared vacant earlier this month after councillor Barry Dunford resigned to take the job of road superintendent for the municipality.

An advance poll for the whole municipality will be held November 12 in the board room of the Lloyd Watson Memorial Centre in Wilberforce.

Regular polling day is November 21, with polling stations to be set up in Tory Hill as well as at the Lloyd Watson Centre.

Flood policy draws council fire

Anson, Hindon and Minden council will formally submit its criticism of Ontario's proposed new flood plain management policy to the provincial committee that is currently reviewing the policy.

Councillors Gary Kenney and Dave Stevens attended a public meeting of the committee in Lindsay recently, and drafted a five page response to the proposed policy, which would regulate development of flood plains throughout Ontario.

Provincial focus on flood plain problems is of particular interest to Anson, Hindon and Minden and Lutterworth Townships because of their proximity to the Gull River and the fact that the river has overflowed its banks in the past.

Kenney and Stevens summed up their responses to the proposed policies on six points, and included four recommendations which are expected to be sent on to the committee in the form of a brief from the municipality.

According to the councillors:

- The Policies' Terms of Reference are much too narrow, and too rigidly applied.

- Disregard for the historic, and economic realities of each locality threaten more "social disruption" than would be realized from the floods these policies allegedly address.

- No concern or preparation for compensation to individuals or the municipalities affected by the administration of these policies is made at all.

- There is no reasonable avenue for individual or municipal appeal other than the inordinate cost and delay in OMB and Lands/Mines hearings.

- The policies overstep a reasonable intervention into private individuals' and local governments' affairs to "prevent loss of life and to minimize property damage and social disruption."

- The cost of administration for these policies will allow very little savings to be realized from the "...unreasonable social and economic burden of unwise individual choices" for flood plain development. The policies just concentrate the risk of "unwise choices" to one rigid Government decree, and lend credence to the observation that sometimes the cure can be far more devastating than the disease.

Kenney and Stevens recommended that provincial officials:

- Not be in such a hurry to arrive at "simpler means of dealing with complex technical matters." Each watershed is a complex situation

that has woven decades of social and economic experiences together. Mathematics and computer "models" cannot take the place of site-specific examinations. The policies' terms of reference must be site-specific.

- Acknowledge the 125 years of commitment and investment AHM ratepayers have made to a village site that was decided upon for practical reasons and awareness of the land's seasonal characteristics. These policies erode local government responsibility and leave in their wake a miserable task of enforcing against one's fellow ratepayers a stringent set of controls

and interferences that were compiled by strangers. The policies must allow development decisions that reflect the interests and priorities of local ratepayers and their elected officials.

As well, they say that:

- Full compensation must be made in cases of loss of property value due to implementation of any Flood Plain Management Policy, whether that loss is realized by an individual property owner, or a municipality with a loss in tax revenue.

- An avenue of "no cost" appeal must be instituted for individuals and municipalities.

MNR policy seen as too restrictive

from page 1

be restricted more than the land owners."

But the audience disagreed, saying the statement was "questionable" and "not right."

One audience member asked the MNR representatives why land owners had not been notified of the new policy.

Mitchell replied that the Ministry does not know who owns all the land on which trappers operate. Their application for a license must include a letter of permission from the owner of the land on which they propose to trap, but the ministry cannot check to see if the permission is genuine. There are simply too many land owners in the area for that kind of approach to be effective, he indicated.

Land owner Bill Davis of Haliburton questioned the policy's effectiveness as a fur management tool. He said he

could not see how telling an individual land owner who can trap and who can't, and controlling the number of trappers, is fur management, since the quota of animals to be 'harvested' remains no matter how many or how few trappers there are.

But Mitchell countered that in some parts of Ontario there are so many trappers operating at present that there is no way to control the number of animals taken, and that fur bearing animals are "going down hill" as a result.

Landowner Curry Bishop told the MNR representatives that he would not adhere to the new policy.

"I'll break law before I'll have somebody trapping on my land without my permission, without me being the one to say he goes on there."

Bishop said land owners "have lost too many rights over the

years" through various government regulations and the planning process.

He said there would probably be many 'outlaws' to the policy. "I don't know what the charges will be, but I'll be one of the first" he said.

County Warden Bill Howe, who chaired the meeting, summed up the comments by noting that although the policy might be needed and welcomed in some parts of Ontario, people in this area are not happy with it.

"This thing has got to be looked at in more depth" he said.

Howe said the county council committee of himself, Murray Fearrey, Don Shortreed and Mac Peters would put together a report on the policy for the November County council meeting, and that it would be presented eventually to provincial officials.

A balancing act

The provincial Ministry of Natural Resources has come under fire for a proposed fur management policy that would limit the number of trappers in the Minden District and restrict the areas within which they could trap. At a public meeting in Haliburton last Thursday night, trappers, land owners, county representatives and MNR employees spent two hours explaining, attacking and defending the policy, and in the process, identified at least three key areas of controversy.

While the policy is to be implemented across the province under the guise of 'fur management', it does not appear to be an effective instrument for limiting the number of animals killed by trappers in any given year. It would limit the number of people who would be permitted to trap in Haliburton County, but would not control each trapper's 'harvest'. Ten aggressive trappers could do as much harm to the ecosystem as 100 casual or weekend trappers. If the aim is to ensure that only a 'sustainable yield' of fur bearing animals are trapped each year, then the number of traps, not the number of trappers, is what must be controlled.

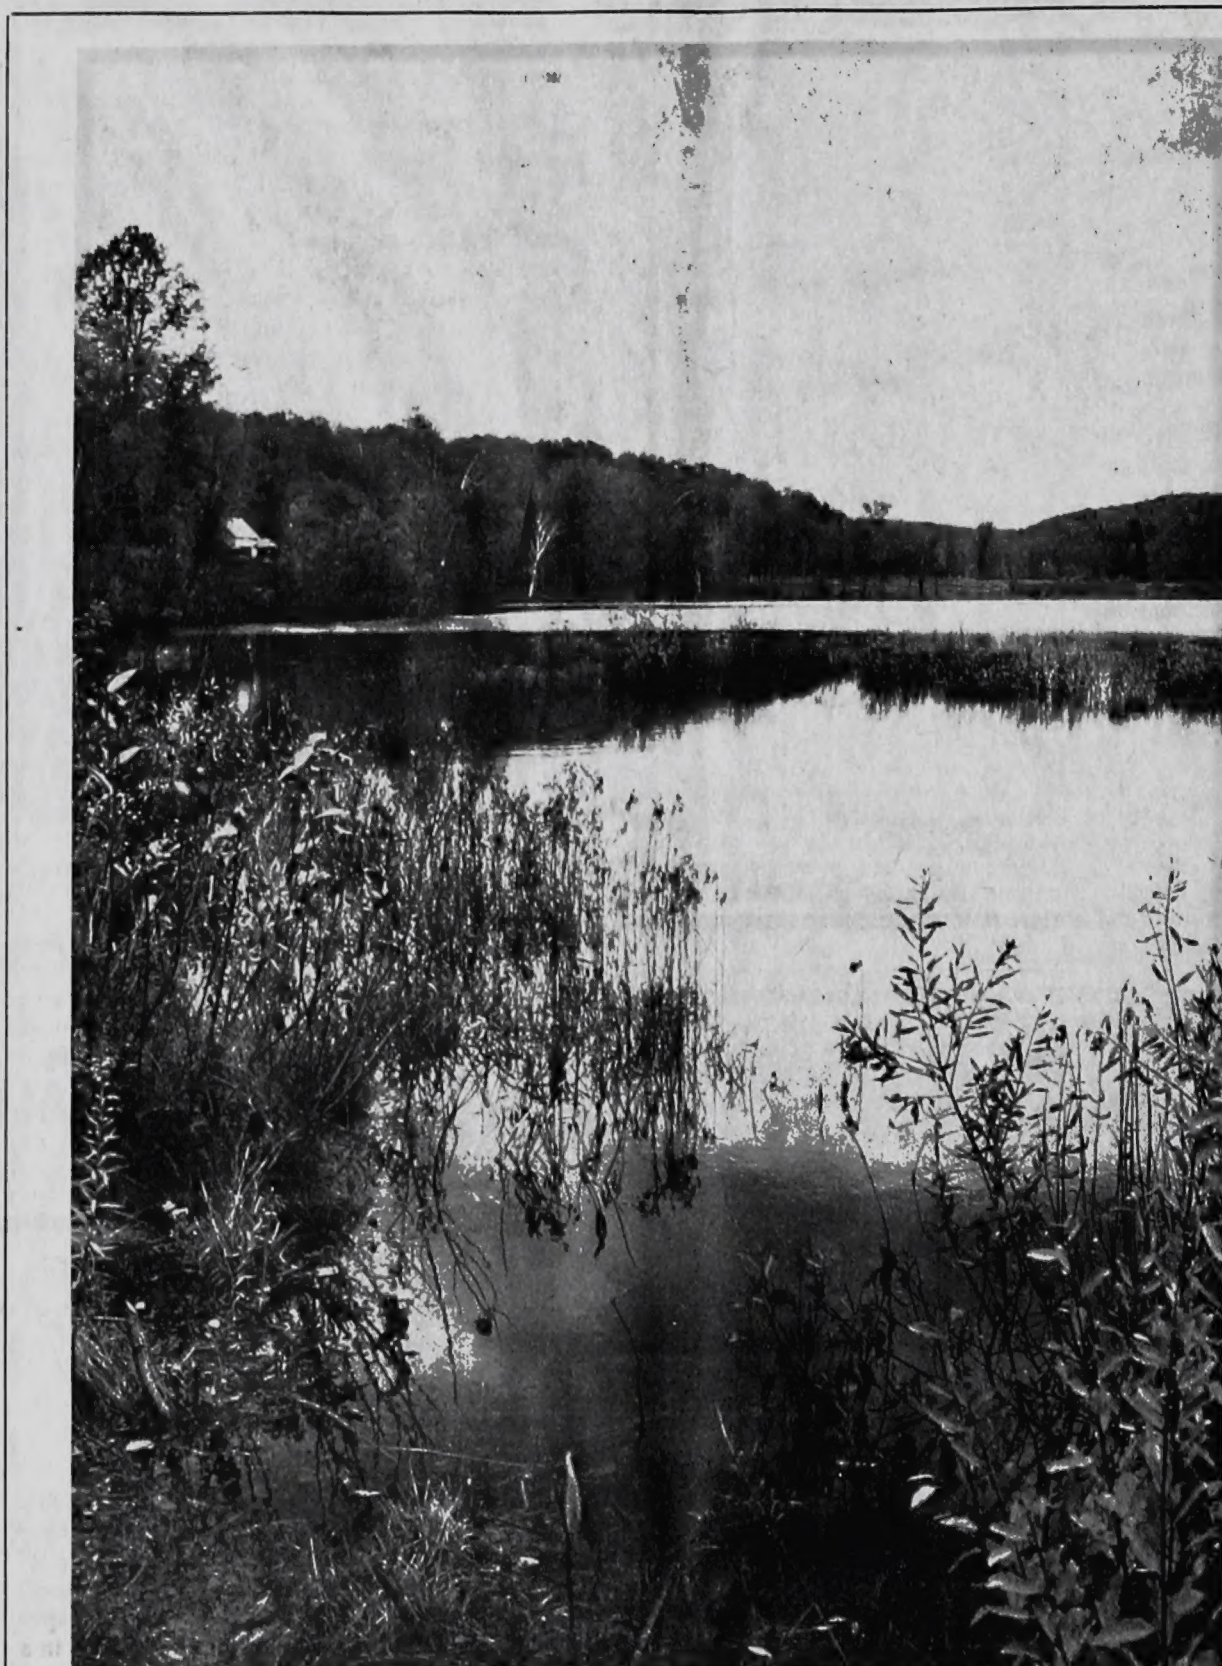

What the policy can do is reduce the possibility that trappers will encroach on each others' trap lines and become enemies, a problem which ministry officials admitted is common in other areas of Canada. But the meeting was told that there are fewer trappers in Haliburton County now than there were in 1980-81, when fur prices peaked. And MNR representatives admitted that feuding among trappers is not a problem here.

A second controversial aspect of the new policy is that it may make it impossible for an individual to earn his living from trapping. Under the regulations, a trapper may only operate within one of four designated fur management units in the county, each encompassing about five and a half townships. Even if a trapper was willing to pay for trapping rights on tracts in two units, he would not be permitted to do so. This, according to one trapper at the meeting, effectively denies an individual the opportunity to make a living from trapping. And it does not limit the number of trappers, since it ensures that at least two people will trap on land that might be better managed by one skilled and conscientious trapper.

The third, and most pervasive area of controversy, concerns the policy's apparent infringement on the rights of private land owners. Under the regulations, a land owner must either permit one of the trappers within his unit to trap on his land, or close that land to trapping altogether. The land owner would not be permitted to allow a trapper with rights in another management unit to set lines on his property, even if the owner felt that trapper was the only one he wanted. This, in the opinion of most of the 100 or so people who attended the meeting, is unacceptable. Some people indicated that they had no intention of respecting this regulation.

What the controversy emphasizes is the complexity of wildlife management in an increasingly crowded and ecologically sensitive world. On the one hand, politicians and scientists must respond to pressure from environmental and animal rights groups for whom trapping, along with other forms of wildlife killing, are anathema. On the other hand, as was evident at the Haliburton meeting, there are people who believe that they should be permitted to trap animals and sell the furs to supplement their income. It is a clash of philosophies, a conflict of world views. The Ministry of Natural Resources is under great pressure to balance these views and come up with policies to ensure that species are guaranteed survival at the same time as their numbers are controlled.

With the proposed new fur management policy, however, it appears they have missed the mark on both counts.

Letters

To The Editor:

I am deeply disturbed by the remarks made by Len Pizzev in Notebook this week, in apology for the incredible decision of County Council to reject declaring the County a Nuclear Free Zone. It is true that force has often - not always played a part in man's survival, but we are not programmed rats in a maze; we do have the option to alter our behaviour when we discover that what we've always done doesn't work. Perhaps you should have read more carefully the wonderful piece by Gerry Feltham in your "In My View" column a few weeks ago, in which he made it clear that working for peace begins right here; that every loving act, anything that elevates us above brute force, works like a pebble in a pond to bring peace to all. Those terrors you mention may keep the

superpowers at bay, but they also create anxiety which breeds error, and it won't take much of an error to obliterate us all. If you had a disagreement with your neighbour would you begin its solution by instilling terror? The outstretched hand in peace cannot reach over preparation for war.

I think that it is time for each of us to come out of hiding behind the skirts of the "Superpowers", the systems, the machines, the weapons - and accepting our full humanity enter the arena of conflict resolution, painful, frustrating, exhilarating as that may be. Each person, each group, each county CAN make a difference - we don't have to wait for everyone else to do it.

Sincerely,
Caroline Bishop

In my view...

By GARY KENNEY

Three things disturb me about debate last week on a question of support by County Council for world wide nuclear disarmament.

Conventional wisdom seems to dictate that: (1) Nuclear disarmament proponents are really talking about stripping the "free West" of "defensive nuclear capability" and reenacting the Lord Chamberlain scenario just prior to World War II. (2) The Russian "threat" is all pervasive and especially apparent in its manipulation of the western peace movement. (3) The complexity of the issue is beyond the scope of municipal government affairs and should be left to those more capable of understanding what's involved.

Strip those prevailing opinions of complacency, 19th century military philosophy, and unmitigated arrogance and this is what you have...empty words...dangerous words...irresponsible words that are not supported by facts, that are based more on myth than the "peacenick credo" they condescend to address.

If the west unilaterally eliminated its nuclear garrison it would by default remove the ongoing poker bluff that is remarkably tagged MAD (Mutually Applied Destruction)...i.e. wipe out my city and I'll wipe out yours; scintar West Germany and we'll torch the Ukraine; vaporize North America and we'll make sure there's not a red-commie left to toss a vodka back ever again. Your bet.

Conceived in sandlot crises where the stakes

are letting Joey be captain or he'll take his ball home, and the game will be over for everyone, MAD strategy has adapted the "game" to a way of life, and given the responsibility for the outcome to a handful of individuals. Consider, however, SANE (Suggested Alternative for Negotiating an Escape) which is my acronym for a proposal by Senator William Cohen of Maine that would see the destruction of two nuclear missiles for every new one deployed. A nuclear "build down." If even just a unilateral western procedure, the "build down" would show commitment to negotiate, and a sincere elimination of any thought of "first strike" philosophy. For those still mired in the concept of a nuclear "response" as a deterrent, we could ask, "Just how many of those warheads do you really need? How many times do you want to potentially remove Moscow from the map before you're happy?" SANE would still leave a "response" capability but most importantly it would allow the flexibility to explore more avenues than just the dead-end certainty of a global melt-down.

The so called Russian "threat" is in my opinion far behind the threat of Warrior Kings. In defiance of the law that states that Congress is the body which decides if the USA will go to war, the documented fact of the past two centuries is that American Presidents have used armed force on their own initiative more than 200 times. The pretense of such flagrant violation of democratic

Community involvement is always a subject that can stir up a great deal of controversy, whether it be during a discussion at one of the local restaurants or at a meeting where a guest speaker has been brought in to speak on the subject. Many of the speakers that I have had the pleasure to listen to have stressed the importance of groups and individuals working towards the betterment of the community. The community is where most of our living is done, and we agree with these men who say that it is very important to get involved. Some people get a great deal of satisfaction from being involved in local projects while others enjoy helping out in sports or in service clubs or other worthwhile organizations. One gets a great feeling of pride when he or she walks by something that they were part of. The community is always in need of workers, whether they get involved in group projects or if they go out on an individual basis to help better the lifestyle in the area in which they live. You can make it a better community in which to live just by getting involved in something.

Bernie Nicholls from West Guilford, who toils for the Los Angeles Kings in the National Hockey League, is off to a flying start this season and at the present time has 11 goals and 11 assists for a total of 22 points, the best in the Kings line-up. In a recent game against the mighty Edmonton Oilers he scored four goals and had two assists as the Kings won a 7-2 victory. Following the game the write-up in the Toronto Sun stated that the 22 year old centre put on a one-man performance reminiscent of Edmonton's Wayne Gretzky, while the Kings were holding the real article to just a third period power play goal. Last Saturday night if you were watching the Leafs-Kings game on TV you would have noticed that Bernie, besides playing three good periods of hockey, was also interviewed by Dave Hodge during one of the intermissions. A large number of hockey fans from West Guilford, Haliburton, Minden and other communities in the County travelled to Toronto to take in the game.

If you haven't had the opportunity to see the 1983-84 edition of the Haliburton Huskies in action this year, your opportunity is coming up this Saturday night, November 5, when the Huskies will play host to visiting Stayner at the Haliburton arena with game time at 8:00 p.m. While still on the subject of the Huskies, Bobby Nichol, who is in charge of selling seasons passes to all Huskies regular season home games, tells me that ticket sales have been brisk. He also went on to say that the ticket which sells for \$30 gives you a season's pass plus a chance on a draw to be held on December 18, 1983 for a trip to Nassau, Bahamas (one week for two).

Melvin C. Zwaig, C.A. gave a very interesting talk on the Key to a Successful Business at a recent meeting of the Rotary Club of Haliburton. He stated that some of the major failures are caused by: one man rule, non participating board, unbalanced administrative team, weak finance function, lack of management depth, expanding too quickly, dependence on one large project, and too much leverage.

Friends of Rex Boice of Haliburton will be pleased to know that he is coming along fine following a double by-pass operation on his heart and the replacement of a valve in his heart. The operation, which took place on Wednesday, October 26 at St. Michael's Hospital in Toronto, was a success and the following Saturday night he was able to watch the NHL hockey game on television with Bernie Nicholls and the Los Angeles Kings. We join with his many friends in wishing him a speedy recovery.

Gladys Reid of the Senior Citizens Club of Haliburton has asked me to mention that they are holding their annual bazaar and bake sale on Saturday, November 5 upstairs at the Haliburton Arena. Handmade crafts, woollens and baked goods will be on sale. Doors open at 10 a.m. and will close at 4 p.m.

Last Sunday was the first afternoon this season for public skating and a crowd of between 100 and 150 were on hand for the occasion. Skating is certainly a lot of fun and great exercise.

Work is well underway for the new addition and renovations to both the interior and exterior of the Haliburton United Church. If you happen to be passing by that way you will notice several changes that have been made. The work is being done by John Beachli Construction Ltd. of Haliburton.

It's a small world after all. Just the other day Nancy Brinks, who operates Nancy's Flowers in Haliburton, was telling me that recently she visited New Jersey, U.S.A. to see an aunt who had just recently suffered a stroke. On her return trip to Haliburton she stopped for gas at a small gas station in Syracuse, N.Y. She just happened to look around and pulling in for gas at the same station were Mr. and Mrs. Stan Baker also from Haliburton.

The local hunters tell me that they are getting itchy feet for the deer season which opens this coming Monday. We will have to wait for a while for those tall tale hunting stories.

Pic of the Past

The above photo taken in the year 1927 shows a great view of the rapids on the Drag River near

Haliburton. These rapids are a few miles from the village and proved to be very rough for anyone trying to navigate down through them. Our thanks once again this week to R. Van Norman of 35 Widdicombe Hill, Weston, Ontario for giving us permission to use this most interesting photo.

Report from Parliament

By Bill Scott M.P.

Over the past few years, I have had the opportunity to welcome many new businesses to Victoria-Haliburton. The larger industries have always proved a great boon to our community. I have been particularly proud to have been able to assist many small businesses and tourist facilities in their plans to operate in this area. As you and I know, these two sectors of our economy are of tantamount importance.

The growing recognition of the tourism industry has led to the opening of a much needed hospitality training centre, one of a kind in rural Ontario. The dedication of those willing to be involved in small business and tourism has not gone unnoticed. In the last year, I have discussed and promoted the plans of several entrepreneurs in other countries wishing to move into the riding. In each case, they were willing to bring with them a considerable amount of capital. Their emigration to Canada would not displace any Canadian workers, but would rather create many jobs for residents of the area. However, in each case, I had to plead with officials in the Department of Employment and Immigration to at least consider the business plans submitted to them. After much time and many inquiries, I got their agreement and I believe they will now be allowed to relocate here.

It appears my interventions have finally registered with the Minister of Employment and Immigration. On October 24, he announced a new approach to business immigration.

"The new measures include a higher processing priority for entrepreneurial applicants, the posting of specially trained entrepreneurial development officers in key source countries, and a two-year provisional admission for well-qualified applicants who have not fully developed their business ventures.

Those admitted on a provisional two-year basis will be closely monitored and the province concerned will be consulted before immigration formalities are completed. Applicants who already have firm business commitments that create jobs for Canadians will continue to be admitted as landed immigrants. The counselling, selection and processing of business applicants will be completed on a priority basis, second only to family class members and refugees.

"To be accepted, entrepreneurs will need sufficient capital to start a business; however, financial status alone will not guarantee a visa," the Minister said. "The active personal involvement of these immigrants in businesses that directly create jobs for Canadians, plus business know-how and managerial skills, are the most important considerations."

Under previous guidelines entrepreneurs were required to participate in the day-to-day management of their businesses in Canada, thus overly restricting the entry of persons whose special knowledge and skills would directly benefit Canadian industry on a broader scale. The new program places greater emphasis on the background, expertise and entrepreneurial spirit of the business immigrant."

Recently, I was approached by some constituents asking for assistance in getting parts from White Farm Equipment. Talking to the Minister

of Industry, Trade and Commerce, I was informed that this was not a widespread problem. I understand that the problem was rectified shortly after I raised the question in the House of Commons. Further discussions with the Minister revealed that, as of October 18, no formal offers had been made for ownership of White, but were expected soon.

On October 13, 1983, the Vice Chairman of the P.C. Caucus Committee on Agriculture, Bill Vankoughnet, M.P., released a statement commenting on the importance of agriculture to Canada. I feel that the comments of the M.P. from our next door riding of Hastings-Frontenac should be read by my constituents, as they reflect my own sentiments as well as those of our party.

Statement by Bill Vankoughnet, Vice-Chairman of the P.C. Caucus Committee on Agriculture, "Finance Minister Needs Education":

With the report that the Province of Ontario proposes to introduce agriculture as a compulsory part of the core science courses in grades 7 through 10, I would strongly urge the federal Minister of Agriculture to support this provincial initiative and urge other provinces to follow suit. Such courses would make the job of Minister of Agriculture much easier.

Too many people - especially the Minister of Finance - are unaware of the importance of agriculture to the Canadian economy. Agriculture accounts for one-sixth of all economic activity in Canada. It employs 18 per cent of the Canadian work force. And it generates nearly 12 per cent of our exports.

However the recession has hit hard. Farm bankruptcies have soared to record numbers and one agricultural economist has estimated that the recession has taken \$5.5 billion worth of assets off the national farm balance sheet.

The P.C. Party has announced a 10-Point Program to help our producers survive this recession. We called for greater funding of the Farm Credit Corporation. The Minister of Agriculture agreed but his colleague, the Minister of Finance, ignored his advice and slashed the FCC's proposal for more funds by over 55 per cent.

We called for the establishment of an agri-bond program. The Minister of Agriculture agreed but again the Minister of Finance has refused to implement such a program.

We called for an improved stabilization plan. The Minister of Agriculture agreed; however, the Minister of Finance has not and, as a result, Canadian producers will continue to suffer from a plan that does not fully take into account rising production costs and a plan that makes its payments after much of the economic damage has been done.

It is clear from this list that the Minister of Finance is not aware of the importance and opportunities in Canadian agriculture nor is he aware of the problems besetting this vital Canadian resource. Hopefully, with the establishment of compulsory agricultural courses at the secondary school level, future Ministers of Finance will not suffer from the same ignorance.

dares at County Council to tell my my life is too complex an issue and I should let the experts decide how it will be lived? If you tell me that, you subvert the intentions and aspirations of those of us who do care what happens and have done something about it. We elected you to represent us. Not pass the buck on up the ladder to the level at which we become mere numbers in a MAD world. You know us. Tell the people up there you know us and we want some sanity in their decisions. Or go home, and let others who know us carry the word.

Queen's Park Report

John Eakins, M.P.P.

Last week, my leader, my colleagues and I announced a major program to provide up to one year's work experience at the basic minimum wage to long-term unemployed youth in Ontario.

Calling lingering youth unemployment one of the most serious problems confronting Ontario, Mr. Peterson said there is an urgent need to provide work for the thousands of jobless 18 to 24 year olds. Educational upgrading and career/Employment counselling is part of our program.

Statistics and charts well document the continuing plight of Ontario's unemployed youth. However, statistics cannot measure the despair of those who cannot get a job because they have no job experience. Nor can statistics measure the desperation of those who do not know how or when to begin to look for work, or unfortunately, the frustration of those who have difficulty even filling out a job application form. This is a generation losing confidence in themselves and lacking hope for the future.

The youth of Ontario need jobs. The need the experience and the self-confidence that come from working. They also need to invest in themselves, through increased educational effort and life skills development.

The program we are announcing would give them that opportunity. This program offers youth an experience which no other provincial or federal program currently provides.

Our youth program would give a guaranteed opportunity for a work experience of up to one year to every youth, 18 to 24 years of age, who has been unemployed for 20 weeks or more.

However, this is not just a job creation program. Participants would be required to enrol in education courses, at levels commensurate with

their needs. In addition, participants would be required to take part in employment counselling services to familiarize them with job search techniques and proper job performance habits. Such counselling would also help them seek further employment opportunities, or as the case may be, further educational or skills training possibilities.

The best estimates of the costs of such a program are \$90 to \$110 million, servicing approximately 14,000 youth each year. It is not possible, in advance, to accurately put a dollar figure to the benefits of such a program. However, experience with these types of programs uniformly show that benefits outweigh the direct cost, on the basis of the goods and services produced, the unemployment insurance and welfare payments saved, increased motivation among youth to seek skills upgrading (the eventual result being a better skilled and more employable work force), reduced crime rates, reduced alcohol and drug abuse, increased tax revenue from a working, previously unemployed sector. Actual estimates of benefits per dollar generated from other programs range from \$1.65 for the California Conservations Corps, between \$1.05 and \$3.13 for the United States Job Corps, and up to \$6.40 to \$7.80 for the Canada Manpower Training Program (not youth specific) in 1970-73.

In sum, our program would offer real benefits to youth and to the province as a whole. We can guarantee for youth a positive employment and educational opportunity and for the province, productive social gains.

Ontario's most important natural resource is our youth. We're prepared to give them the right chance.

Federation of Ontario Naturalists

By ARLIN HACKMAN

Life in a greenhouse

As I gathered the last ripe tomatoes from my garden some days ago, I couldn't help thinking how pleasant the onset of winter might be if only I could enclose the entire backyard in a greenhouse. As luck would have it, the next morning's paper brought news that my wish may be granted -- in a manner of speaking. Instead of a genuine greenhouse it promised something called the "greenhouse effect."

Actually it's no laughing matter. Nothing less than a dramatic change in global climate is on its way, it seems. The greenhouse effect refers to the prediction that the earth will become warmer as carbon dioxide gas, released from worldwide fossil fuel combustion, builds up in the atmosphere where it traps the sun's heat like the glass of a greenhouse. Having debated the theory for a century, climatologists now agree it is right, as two authoritative American studies have just shown. If carbon dioxide increases enough, the ice sheets of Greenland and the west Antarctic could melt and raise sea level catastrophically. Halifax would have the climate of Miami, but most of it would be under water.

Though approaching these possibilities with great caution, scientists at Environment Canada say it's very possible the mean annual tempera-

ture will rise one half degree by the year 2000 in Ontario and be accompanied by a trend to dryer weather. This change alone, resulting from a doubling in atmospheric carbon dioxide, would extend our southern growing season north as far as James Bay, shift our agricultural crops, lower water levels in the great lakes, and require changes in our building code, to name a few effects.

There are other factors which vary the buildup of carbon dioxide or offset its effects and complicate prediction. Trees and plants capture and store carbon dioxide. Weathering converts silicate rocks to carbonates which erosion carries to the sea. The oceans absorb and release carbon dioxide and heat in quantity, but over very long time periods. Gases such as freon and methane contribute to the greenhouse effect. On the other hand, volcanoes spew vast quantities of ash into the atmosphere which can significantly reduce incoming solar energy.

Even so remaining disagreement among scientists boils down to whether we take action to control carbon dioxide emissions now or in the 1990's. So the greenhouse effect is another strong argument for a realistic, diverse energy program and responsible emission controls which the acid rain phenomena has already shown are required.

I think I'd rather save the money for a real greenhouse, than have one brought to me courtesy of unchecked pollution.

POLL 2 - Board Room, Lloyd Watson Centre, Wilberforce, Ont.

PROXY VOTING

CERTAIN PERSONS may appoint another elector as a voting proxy.

Applications are available at the office of the clerk.

THE LAST DAY for making application to the clerk for a certificate to vote by proxy on behalf of another elector is Monday, November 21, 1983, not later than 5:00 p.m.

DATED AT WILBERFORCE, ONTARIO THIS 2ND DAY OF NOVEMBER, 1983.

Sharon Stoughton,
Clerk,
Township of Monmouth

In my view...

from page 4:
process is always of course that such actions are in the public interest, and that debate of such actions must wait until the crisis has cooled. Pollywog-piddle! It's going to take a few hundred thousand years for things to "cool down" if some cowboy President decides to pre-empt the voice of the people and debate the issue after he pushes a few red buttons in the name of justice, freedom, mom and apple pie. Assuming moss and bacteria are up to a debate.

Which brings me to my main concern. Who

HHSS soccer squad wins title

Victory gained in shootout after scoreless overtime

Haliburton's senior Redmen soccer team won the Kawartha West title last Wednesday in spectacular fashion, netting two goals in a shootout against Fenelon Falls after scoreless regulation and overtime halves.

Scouter Burgess and Jeff Smith were the heroes of the day, as they scored the markers in the best of five

shootout, while goal tender Andrew Shapiera stopped Fenelon Falls cold.

The game was an exciting one for fans, as both teams played all out in their bid to win the title. The Redmen came close to scoring on a number of well executed passing plays, but the ball stayed out.

Play was fast and aggressive

sive despite a cold rain that fell steadily for much of the second half, and throughout the overtime period.

The senior Redmen travelled to Cobourg this Tuesday to contest the Kawartha District title in a round robin tournament.

Results will be available next week.

Redmen player shows a soccer style tackle

Mens league now underway

Haliburton Lumber look strong with two straight wins

Men's recreational hockey got underway for another season last Monday night as Haliburton and area enthusiasts gave skating and scoring muscles their first workout after a long, hot summer.

The opening match was an exciting one, as Curry Motors and Emmerson Lumber traded the lead several times and ended up tied at five apiece, while in the second game, Haliburton Lumber had an easy time of it, handing Bishop and Wilson a 9-1 defeat.

Emmerson Lumber got off to a quick start against the motormen when Bill Johnston scored with help from Brian Mulholland. But two and a half minutes later Phillip Barry tied the match, assisted by Gary Burtch.

With 3:30 left in the period, the motormen moved into the lead on a goal by Rick Wood, who was aided by Jim Burk.

Less than three minutes into the second period, Emmerson Lumber tied the score at two when Dean Curry put the puck past netminder George Schmid on a solo effort.

Curry Motors regained the lead at the 4:20 mark on Rick Wood's unassisted goal.

Emmerson Lumber came back to tie the score at 12:05 as Brian Mulholland scored on a three way passing play, assisted by Gary Brohman and Chip Trueman.

Neither side could regain the advantage for the rest of the period, and the score remained tied for seven and a half minutes of the third, until Jim Burk got an unassisted marker to give Curry Motors a 4-3 lead.

A minute and a half later, Dean Curry got his second goal of the game for Emmerson Lumber and the teams were once more even. Curry was assisted by Joe Roberts and Jerry Walker.

With 8:40 left on the clock Luke Schell put the motormen back into the lead with help from Mike Easton. But Emmerson Lumber kept the pressure on, and with five minutes left to go, Joe Roberts got the fifth, and final goal for his team, assisted by Dean Curry and Mark Schell.

Final score was 5-5. In game two, Haliburton Lumber proved too much for Bishop and Wilson, who were held to a single goal while the Lumbermen tallied nine times.

Larry Allen opened the scoring for Haliburton Lumber with help from Kevin Sisson and Paul Morissette. A little over a minute into the second period Bishop and Wilson came back to tie the score on a goal from Ken Riley. Greg Bishop and Larry Wilford were also in on the play.

At the midway point in the period Haliburton Lumber took the lead on Keith Hodgson's goal, assisted by Morissette and John Cornell, and the team continued to take the play away from Bishop and Wilson.

Tom Curry scored unassisted a little over a minute later, and Hodgson added two more in quick succession. Curry scored again with 40 seconds left in the period.

Three more goals were netted in the third, as Larry Allen got his second, Wells Robertson and Kevin Sisson found the mark.

Haliburton Lumber continued to look strong in league play Monday night, as they outscored Curry Motors 7-2. In the other game of the night, Emmerson Lumber defeated Bishop and Wilson 3-1.

Haliburton Lumber took control in the first period with three unanswered goals two from Keith Hodgson and

Soccer action was fast and aggressive in division final

Huskies show drive to win

By BRYAN ABBS

The Huskies did it again on Saturday night at Dysart arena. Trailing 6-3 with 4:14 left in the third period, the Huskies scored three goals; two on the power play, to earn a 6-6 draw with a tight checking Oro team.

Huskies scored first at 7:27 when Dave Nicholls connected from Drew Bishop on a great pass.

Goalie Colin Newell took a slashing penalty and with Huskies a man short, Oro tied things up at 12:54 on the power play.

Haliburton came back at 18:27 on a power play goal. Rob Abbs to Dave Nicholls to Scott Arbuthnot to take a 2-1 lead heading for the second.

The second period was all Oro as they scored three unanswered goals, one while they were one man short. The score might be higher but for some exceptional saves by Colin Newell in the Huskie net.

Oro tied the score at 8:40 with a nifty passing play. Oro took the lead at 15:07 when they scored while a man short. Oro connected again at 17:57 on some sloppy clearing in the Huskies end and took a 4-2 lead heading for the third.

The Huskies came out in the third period roaring and it paid off when McKelvey

scored from Greg Newell at 2:59.

Oro came back with two goals at 5:07 and 13:43 and it looked like the Huskies were dead.

But as they have shown in the last four games, the Huskies connected at 15:46, Boomer Stamp scoring from Nicholls and Arbuthnot.

A double penalty to Oro and a 4 on 3 situation enabled Arbuthnot to score on some beautiful passing with

Nicholls and Bishop at 17:19. Then on the same power play it was Jeff Stamp from Nicholls and Scott Rae. The game ended in a 6-6 tie but the Huskies showed that come from behind attitude that makes a competitor.

It was a good clean game and a crowd pleaser with both goalies coming up with super saves.

Huskies went to Gravenhurst on Sunday night and came up short as the Indians

scalped the local boys 5-3 in a fast, well played three periods of hockey.

Huskies took a 1-0 lead in the first period on a goal by Boomer Stamp with some good stick work by Scott Rae and Dave Nicholls at 17:57.

Gravenhurst tied the game at 3:42 on a scramble around the Huskies net and went

ahead 2-1 on another scramble with Rae serving a delay of game penalty. It was 3-1 Gravenhurst at 14:41 due to some sloppy puck handling inside the Huskies blue line.

The Indians upped the count to 4-1, scoring at 7:08 of the third with Steve Smith in the penalty box.

Please turn to Page 8

Bantams defeat Bancroft rivals

On Saturday, October 29, Haliburton House League Bantams travelled to Bancroft to play an 8:00 a.m. game against Vito's Pizza.

Dave McKay opened the scoring for Haliburton at 5:59 of the first period on a pretty two-way passing play with brother Mike McKay. Bancroft came back to tie the game, but another goal by Dave McKay on a blistering slap shot set up by a pass from Dave Hodgins and two nifty goals by smooth skating centre Ben Packard put Haliburton in a comfortable 4-1 lead by 10:33 of the second period.

Bancroft fought back with

another goal but Ben Packard completed his hat trick with Haliburton's fifth goal after a nice pass by Mike McKay.

In the third period, the Haliburton team took some penalties and Bancroft made the most of their opportunities, scoring three goals to tie the game 5-5. Dave McKay put the Haliburton team ahead at 11:12 of the third period, scoring his third goal of the game from a scramble in front of the net after a pass from Troy Austin.

Bancroft pressed hard in the third period for the tie but excellent work by defencemen, Eoin Ross, who skated miles for the Bears and other defencemen, Paul Robinson, Jason Rowden and Dave Hodgins as well as goalie Jeff Smith kept Bancroft at bay.

The Bears play their next game in Haliburton at 2:00 p.m. on Saturday against Wilberforce.

Jr. Redmen win sixth, take the division title

Haliburton's Redmen junior football team rolled over Fenelon Falls on Thursday to win the Kawartha West championship with a season record of six wins and no losses. The juniors piled up 190 points in those matches while allowing only 12 points to be scored against them.

Thursday's win set the stage for the Kawartha District championship this Friday, when HHSS will take on Adam Scott from Peterborough, winners of the Kawartha East title.

The overall Kawartha winner will advance to the Central Ontario championship.

Head coach Gary Brohman thinks his team has an even chance of winning against the Peterborough school, and Haliburton's home field advantage may make the difference.

The HHSS squad had trouble at the start of Thursday's contest against Fenelon Falls, but once they got things clicking, they completely dominated play.

Neither team scored in the opening quarter, although Haliburton was able to mount an effective offense.

In the second quarter, Mike MacNaull put the Redmen on the board with a 75 yard off tackle run for six points. The convert was missed.

Fenelon Falls came right back with a 60 yard touchdown, and also failed to convert, leaving the teams tied. The Redmen came up with a big defensive stand late in the second quarter as they stymied Fenelon Falls three times from five yards out.

Haliburton began the second half aggressively, as Kevin Barkwell and Paul Allore jarred the ball loose from Fenelon's kickoff receiver and Brad Archer got possession on the 40 yard line.

Mike MacNaull got his second TD on the ensuing series as he rambled 40 yards off tackle to give the Redmen the lead. The convert attempt was unsuccessful, but later in the quarter Trevor Powers added a single on a 25 yard punt.

In the fourth quarter Fenelon Falls did not penetrate beyond midfield, while the Redmen added three more touchdowns. Paul Allore scored from 15 yards out, while Mike MacNaull got his third of the game from 35 yards out. MacNaull ended the season with 792 yards in six games.

Andrew Burk added six more to the total when he snagged a 10 yard pass from Trevor Powers and ran 20 yards for the touchdown.

Game time for the Junior Redmen this Friday is 2 p.m. The Senior Redmen also

Seniors end season

The Senior Redmen also scored a victory on Thursday, defeating I.E. Weldon 34-7 for the Kawartha West consolation title. The win gave the seniors a three and three record and third place overall in the Kawartha West division.

Haliburton struck early, scoring on their first possession as Rob McLeod went in from 20 yards on an off tackle call. A two point conversion attempt was unsuccessful, and with I.E. Weldon getting a single, the first quarter

ended 6-1 for the Redmen.

Haliburton dominated in the second quarter, and Jeff Bain added six more points on a quick pitch. Paul Vuksic was good on the convert.

Later in the second quarter Weldon fumbled on their 30 yard line, Paul Allore picked it up and went in for a touchdown. Vuksic was good on the convert attempt, giving the Redmen a 20-1 advantage at the half.

In the third quarter the Redmen tried a 45 yard field goal, but settled for a single point when the kick went wide of the posts.

In fourth quarter action, Steve Smith scored a defensive touchdown for the Redmen and Vuksic added one point for the convert.

Weldon got their only touchdown of the game in the fourth quarter, but missed the convert try.

Late in the game, Steve Smith caught a pro pass and drove to within two yards of the end zone before he was stopped. On the next play Vuksic tossed quick pitch to Doug Schell and he scored another six to round out the scoring and the season for the senior Redmen.

Lumbermen look strong

from page 6
the other by Glen Scully.

Less than a minute and a half into the second period, Pat Wilson made it 4-0 for the lumbermen.

Late in the period Curry Motors got on the scoreboard as Scott Cook netted one, but it failed to ignite the team, and they went into the third period trailing 4-1.

Haliburton Lumber added three more as the game wound down, as Walt Prime, Paul Morissette and Larry Allen each scored.

Curry Motors final marker came with just 40 seconds left to play, by Rick Wood.

In the other game, Bishop and Wilson took the lead late in the first period on a goal by Steve Cooper, and held onto it for a minute and a half of the second period, until, Joe Roberts got the tying marker for Emmerson Lumber.

Gary Brohman put Emmerson in the lead near the three quarter mark of the second period, and the score remained unchanged until, in the third period, Brian Mulholland added an insurance marker to give the Emmerson Lumber squad a 3-1 win.

OMHA Atoms tie

Haliburton's OMHA Atoms played to a two all tie in Minden Friday night.

Scoring for Haliburton were Wade Wood from Chris Greenfield and Chad Bain, and Greg Brohman from Derek Wilson and Greg Stamp.

Hans Fleugel was solid in the net for Haliburton, while Reed Elstone, Jeff Black, Russell Morrison and Jamie Hartin put in a good defensive effort.

Lori Roberts and Lyn Winans warm up for a match in a novice squash tournament in Haliburton on Saturday. Winans went on to win the women's side of the event.

Squash club hosts tourney

Friday night and all day Saturday the Highlands Squash Club hosted a Regional Novice Squash Tournament. Men and women players came from Peterborough, Huntsville, Minden and Haliburton. Preliminary games were played Friday night and during Saturday elimination games were played to decide consolation winner and champion for men and women.

In the men's section of the tournament Eric Dunn of Haliburton, defeated Roy Scott of Haliburton, for the

consolation trophy. The championship final saw Steve Heming of Haliburton, defeat Paul Oriff of Huntsville, in an exceptionally well played match.

The Women's Novice champion was Lyn Winans of Minden, who defeated Jane Petman of Huntsville in a very exciting game. Barb Pierce of Haliburton, was the women's consolation winner.

defeating Wendy Gough of Haliburton.

Trophies were presented Saturday night at a dinner and costume party in the club's lounge.

Jack Gubser won top prize for his costume. He came as an airplane!

Anyone interested in joining the club is invited to attend an open house on Saturday, November 12, beginning at 7:30 p.m.

Field hockey team makes all-Ontario

Haliburton Highlands Secondary School's Girls Field Hockey team has become the first group of students from Haliburton to advance to OFSAA (All-Ontario) competition in a team sport.

The girls hosted an exhibition tournament earlier this fall and travelled to Oakville to prepare for last week's combined Kawartha-COSSA final in Peterborough, with first and second place teams advancing to OFSAA.

Haliburton met Kenner Collegiate in the first game and defeated them 3-0. Goals were scored by Melissa Creelman on a cross-pass from Signe Tashlin, Tara Davies on a rebound from a strong drive by Signe Tashlin and a second goal by Melissa Creelman.

In the second game the girls faced Lindsay Collegiate and defeated them 2-0 on goals by Marla MacNaull. Both counters were on corner hits from Melissa Creelman to Tara Davies.

The third game was crucial as the local girls faced Peterborough Collegiate - last year's second place finishers. Some of the pressure had been taken off by Kenner who held PCVS to a tie in the preceding game. Haliburton needed only a tie to advance to the final, but won the game 1-0 on a goal by Marla MacNaull. Kathy Shipley earned two of the shutouts in goal while Sandra Heywood blocked all the attempts from Lindsay.

The final game pitted Haliburton against Thomas A. Stewart, winners of the 'A' pool in three straight games. The teams have met in previous years TAS has advanced to OFSAA for the last four years. The game was well-played, but the girls from Stewart maintained their championship form, winning 2-0. However, both teams advance to OFSAA competition in Peterborough November 3, 4 and 5.

Midgets win one, lose two

The Haliburton Minden Midgets tied one game and lost two more in the week's action.

On Tuesday, at home against Bancroft, the team played two fine periods of hockey. In the third period they faded badly and in the end needed a last minute goal to salvage a tie.

In the first period, Mike MacNaull, scored unassisted; Ian Cooper tallied from Chris LaPorte and Jeff Howe; Mike MacNaull scored another unassisted; Tran LaRue scored from Mike MacNaull, and Bancroft scored one.

Action saw Greg Newell score from Mike MacNaull; Jeff Howe net one from Len Johnston; and Dennis McKee scored from Tran LaRue. It was even hockey as Bancroft also scored three.

In the third period, Bancroft scored four, to go ahead, until a last minute goal by Len Johnston from Jeff Howe and Ian Cooper produced the tie of 8 all.

Thursday, Haliburton was at Bancroft and the local boys took a quick two goal lead. Mike MacNaull scored from Chris LaPorte; Jeff Howe tallied from Len Johnston.

The second period was all Bancroft, as they popped four, while Haliburton took possession of the penalty box.

In third period action, Bancroft added three more, while the local team's lone tally came from Tran LaRue, assisted by Cory McKnight. The penalty box was again stuffed with Blue.

Final score was Bancroft 7, Haliburton 3.

In Saturday, Gravenhurst at Minden saw a fast first

THE HALIBURTON COUNTY ECHO AND MINDEN RECORDER

League elects executive

The Haliburton Ladies Softball League had their wind up general meeting and banquet last week.

The new executive consists of: Ginny Geming, president; Wanda Scott, vice president; Cheryl Cooper, treasurer; Anne Hewson, secretary; Helen Burk, press person; and Mike Fearrey as past president.

The annual banquet and dance was held at the West Guilford Community Centre October 22, with a large attendance from all seven teams.

At this time the teams would like to thank the past executive, consisting of Mike Fearrey, Gail Krupa, Kris Storey, Lori Dean, Helen Burk and Joan Alger. Also all the sponsors, fans and umpires for making it another great year.

Special thanks to May Nicholls and Carol Stamp for a delicious meal at the banquet.

The winner of the draw for the ATV was Leo Gowanlock of St. Thomas.

Midgets have tough week

from page 7

period of scoreless hockey.

In the second period, Gravenhurst slipped three past Haliburton.

The third period was another saw-off with a goal each, Chris LaPorte scoring from Mike MacNaull. Final total was Gravenhurst 4, Haliburton 1.

Coming up: Sat. Nov. 5, Bracebridge at Minden, 5:30; Tues. Nov. 8, Port Carling at Haliburton, 8:30; Wed. Nov. 9, Haliburton at Huntsville, 7:30.

Huskies show come-from-behind skill

from page 6

Huskies got one back on a power play of their own at 13:51. Greg Newell scoring from Nicholls and Rae. Again poor puck handling and some good forechecking by Gravenhurst resulted in another goal, and it was the Indians ahead 5-2 at 14:37.

Huskies rounded out the scoring at 16:56 when Bernie Upton counted from Newell

All in all it was a good week to forget for the local boys.

The last minute and 38 seconds saw coach Stamp pull goalie Dave Storey in an attempt to tie the game but Huskies could not beat the Gravenhurst goalie although they did have several good chances.

Friday the Huskies journey to Midland for an 8:30 game and Saturday Haliburton will entertain Stayner at 8 p.m.

Hallowe'en is lots of fun, especially if you're in Kindergarten and your teacher, Mrs. Walling, brings you to Extencicare for an hour or so of singing and visiting. As the smiles on everyone's face show, the youngsters had a good time, as did residents of the home who watched the performance.

Poppy sale funds help needy vets

The Dominion president of the Royal Canadian Legion has proclaimed November 5 to 11th as Remembrance Week.

Members of Branch 129 Royal Canadian Legion, Haliburton will be starting to canvass businesses in the area immediately for the sale of wreaths and crosses to display in their windows for Remembrance Week.

The annual poppy campaign will begin on Friday and Saturday, November 4 and 5 when members of the Region and Ladies Auxilliary will be on the streets selling poppies.

The annual distribution of poppies and wreaths is the Canadian Legions only National Appeal for funds, which are held in trust in a separate account.

Branch Poppy Trust Funds are reservoirs from which Emergency Assistance can be given to needy veterans, their dependants and the widows and children of deceased ex-servicemen. Last year \$3731.55 was spent in this area.

The Poppy Fund is the Canadian Region's way of remembering the debt which all of us owe to those who sacrificed so much. It is the Canadian Legion's belief that Canadians appreciate the opportunity of contributing in a small way to the payment of this debt.

In addition to the act of remembrance, contributions to the Poppy Fund are tangible expressions of thanks to the men who died and to those who have been left disabled.

Stan Moore, Poppy Campaign Chairman

Dysart council

from page 2

The Reeve and Clerk were authorized to sign the road agreement with Sherwood Developments Ltd. and accept deeds from Halcen Holdings (re:roads) to review and approve the building restrictions placed on the lands owned by the above named firms on Spruce Lake and Outlet Bay - Dysart Township.

Council concurred with the Ministry of Natural Resources in allowing Ronald Tyn-dall to construct a retaining wall and boat ramp on his property - Part Lot 1, Con. 3 - Harburn Township (Moose Lake).

Council concurred with the approval of the Ministry of Natural Resources in allowing Burk Fisher to remove sand bar from flooded lands, Lot 18, Plan 541 - Guilford Township (Moose Lake).

Garnet Brown was advised that Council do not wish to proceed with the roof renovations to the community hall portion of the arena at this time.

Council are willing to adjust the Purchase Price of Dos Santos of Blocks A & B and a section of Unopened Road Allowance in Reg. Plan 482, Dudley, downwards by \$250 provided Dos Santos closes Blocks A & B this month and the section of Road Allowance as soon as legally possible.

Council concurred with the Ministry of Natural Resources to allow Norman Devos to fill a portion of his lot fronting on Kennis Lake being Part of Lot 8, Concession 3, Havelock Township.

Paul Brown was advised that Council must regretfully refuse his application to renovate and rent the second building on his property as it would be in contravention to the intent of the Zoning By-law.

Council concurred with the Ministry of Housing suggestion of including the Misk-wabi Lake area in the Official Plan under Amendment #9.

Minden hockey results

The Atoms played in Haliburton on Friday, October 28. As was the case last season, both Atom teams were very evenly matched. Scoring for Minden were David Lee and Robbie Ackers-blade. Aaron Hie had a strong game in goal for Minden. Although he didn't make the scoresheet, Hunter Obbe played a good game as well. Final score was Minden 2, Haliburton 2.

Minden met Humphrey in Minden on Saturday, October 29. Scoring for Minden were: Robbie Ackersblade unassisted; Oliver Greer unassisted; Jamie Dollo from David Lee; Darren Sawyer from David Lee; Darren Sawyer from Randy Bull; Randy Bull from David Lee; and Randy Bull from Jason Todd.

Aaron Hie recorded the win in goal and Kevin Buchanan played a good defensive game.

Final score was Minden 7, Humphrey 3.

Next game for the Atoms is Saturday, November 5 at 1:30 in Minden against Huntsville.

BY BERT HARRISON

An interesting service was held in the chapel Sunday night. Although the Thompson's were not there, Mary Burgess read the lesson and

also offered prayer, and Rev. John took over from there. Now Rev. always has something up his sleeve, something so interesting you just couldn't leave. When he had no music to play he had a tape of a choir singing from very far away. Across from old England which is very far, singing "Onward Christian Soldiers marching as to War". We are pleased to hear from Rev. Brubacker from time to time, after a serious operation he is doing fine.

We have Joan Kernohan back after a week of holidays. Different ones filled in for her while she was away. A word about a lady who works in the office on weekends or

whenever she is needed - her name is Ada Lewis, she looks after all our phone calls and if we owe her money she doesn't try to do us. She works so faithfully and keeps things up to date whether it is early or perhaps a little late.

Doris showed us three movies on Monday night, "Land Fall Asia", "Malign Lake" and then "The Long Haul Men".

Tuesday morning, Lieutenant Buell of the Salvation Army, Haliburton held an interesting service in the chapel. Fred Ballard came the music to play. We thanks you both for coming this fine October day.

My sister Pearl and

daughter Ruby came and brought a lovely planted mum. They stayed for lunch with us and we were glad they had come.

To Herbert and Ada Shorter on their wedding anniversary, which rolls around once more, and if we remember correctly the count is sixty four: You have stayed together all these many years, sharing joys as well as yours tears, with a fine son and daughter you are truly blest. All wishing you continued happiness here at Hyland Crest.

Tuesday night Fred Ballard came and played music for an hour or so. I helped him with harmonica until 1

By MILLIE MOSS

Some dates to remember: Fowl Supper, Saturday, November 15 at the Galway Hall off Highway 121, four miles south of Kinmount, 4:00 p.m. to 7:00 p.m. Adults \$5.50, children under 12, \$3.50. Tickets are available at the door or for reservations call: 488-2217 or 488-2000. It is sponsored by the Galway Culture and Recreation Committee. All proceeds will be donated to the Galway Hall building fund.

St. James A.C.W. will be holding their annual bazaar in the Kinmount Community Hall, Saturday, November 26 from 11:00 a.m. to 3:00 p.m. A luncheon of homemade soup, plates of assorted sandwiches and plates of all kinds of goodies to please the sweet tooth will be included. There will be lots of crafts, a white elephant table, rummage, a bake table plus a lucky dip for the children. Come one and all for an enjoyable day with your friends.

Again I've been asked to announce a "do" which, as it turns out, will be the same night as this column is mailed in the Echo office. Please folks, if you wish your announcements to be in print, try to have them ready the previous week to the date of your event. A Fowl Supper will be held at the Royal Canadian Legion, Branch 441, Kinmount, on Saturday, November 12, from 4:00 p.m. to 7:00 p.m. Adults \$5.50, children under 12, \$3.00. Tickets available at the door. Come and enjoy a delicious dinner and good time with your friends.

On Sunday, November 13 a Remembrance Day Parade will be held. Service will be at the Cenotaph at 10:45 a.m. followed by a church service at the United Church at approximately 11:15 a.m. The Legion auditorium will be open following the church service where lunch and refreshments will be served and everyone is welcome to both services and to the lunch, in case of inclement weather the Remembrance service will be held in the Legion at 10:45 a.m.

Congratulations to Bert Young on his \$32.50 win in the Kinmount Legion 50/50

draw, Saturday, October 22. Congratulations also to Joan and Ken Bowins who celebrated their thirty-third wedding anniversary on Friday, October 28. Methinks divorce may be in the offing though, as Ken was overheard to say he couldn't remember just where it was they were married.

Results of the euchre at Galway Hall last week: ladies' high, Flo Drinkle; ladies' low, Maxine Cross; men's high, Leon Wright; men's low, Doug Drinkle; lone hands, Brenda Longhurst. Everyone is invited to attend the card games at Galway Hall each Wednesday evening beginning at 7:30 p.m.

Don't forget Dettman's Video in Kinmount now has over 150 movies in stock. Give John a call at 488-2037 for further information.

Vi and Albert Crego enjoyed the company of Grace and Russell Leaky of Gananoque for a few days last week. We hope to hear all you ailing folks are well very soon and to name a few: Helen Jones, Joan Hyams, Ida Young, Sam Telford, Mary Pyke, Alex Graham, Vivian Anderson, Ken Scott, Mary O'Toole, the Cooper boy injured seriously at work recently and Virginia Barkwell.

I enjoyed a meeting of Avon "reps" at the Legion in Haliburton on October 25. That was just two months before Christmas you know. Betty Lonsdale and I visited at the home of Helen Jones on day last week.

I enjoyed a phone call from Marion Sweetland last Friday. It was the first time I'd heard from Marion in some time and she says she's much better these days. I was glad to hear too, that Sam Telford is improving each day.

Welcome home from the sunny south, Father Brooks.

The A.C.W. of St. James, Kinmount, wishes to take this opportunity to thank everyone who so graciously helped us make our annual turkey dinner the most successful one we've had to date. Well over 300 people attended and all seemed in a happy frame of mind. Thanks

to the Canadian Legion Branch 441, for the use of the hall, to the young people who came to help us serve, to the many who dug in with the dishes, and boy, were there dishes! All those pies sure looked delicious and only a few pieces were left. People came from near and far and we even had quite a number of take outs. To the gentleman who asked if I was the writer of this column I still say your visiting Newfoundland was a very intelligent person.

Well, the Teen Dance held at the Kinmount Community Centre turned out to be a tremendous success on Friday, October 28 and I'm told all are looking forward to the next one, to be held at the Centre Friday, November 25 from 8:00 p.m. to 12 midnight. Admission is \$1.50. Everyone is welcome. Pop and chips are available on the premises. The October 28 dance was a fun "do" with teens in costume with prizes going for the best costume. First prize went to Liz Freeman (the black cat), second prize to Jo Anne Silver (the little cheerleader) and third prize to Robbie Stata as the pink panther. The happiest - funniest - noisiest guy award was handed over to Steven Freeman. There was a late mystery arrival who had intentions of scaring all and sundry. For shame, Paul Silver!

The Hall was beautifully decorated by the Girl Guides and their mothers. I hope to see all of you at the next dance. Some folks recently raved about the sweet and sour sauce I served and asked for the recipe. There's really nothing to the making of it and I like it for "dipping." Sweet and Sour Sauce: Put some margarine in a skillet and chop into it one large onion. Fry for a short time and then stir in one cup of brown sugar, 1/2 cup catsup, 1/2 cup vinegar and fry/simmer for a few minutes. It really is good and you'll know when it's ready. (Don't take too deep a breath while stirring or your sinuses will clear out.)

With that it's time to call a halt for another week. Stay healthy and happy and read the Echo. I'm usually at 488-2353.

Students at Haliburton Highlands Secondary School entertained parents and friends with a two hour variety concert last Thursday night that included a number of skits, like the one caught in progress above.

Wilberforce News

The combined services of Tory Hill United Church and Wilberforce United Church will meet at Tory Hill beginning November 6. Service and Sunday School at 11:30 a.m. Everyone is welcome.

Blake Barnes was born and raised in Monmouth and was respected by all who knew him. Last week he died suddenly at his home on Pine Drive. The sympathy of the community goes out at this time to his wife Adele and their children Sharon, Heather, Eric and Sheila. A funeral service was held in Bancroft on Saturday, October 29, 1983. Many beautiful flower tributes and the large number of people in attendance expressed the love and concern of his friends and relatives. He will be missed. He was buried at South Wilberforce Cemetery.

The Senior Citizen bazaar which was to have been held on Saturday afternoon was cancelled. It will now take place this coming Saturday, November 5 at the Hall starting at 1 p.m.

A third and last rummage sale was held on Saturday morning by the A.C.W. members of St. Margaret's Church. As there is still plenty of good clothing available, a bag sale is slated for this Saturday from 10 to 11 a.m. You are invited to come and pick up a garbage bag full of articles of your choice for only \$1.

A Hallowe'en party for kids was held in the basement of the Library on Friday evening, October 28. The children arrived in various costumes, many of them were of unique design. They enjoyed a fun night with films shown by librarian Bessie Croft and later games and treats. We are so lucky to have Donna Herbert with her numerous ideas of great games and entertainment for all ages. Harold Herlihey was invited to come over and judge the costumes, with just five minutes notice he was quite willing to lend a hand. He confessed later that the selection was made difficult because of the variety of

excellent costumes. Over 40 youngsters were in attendance. Some of the mothers were very helpful and this was appreciated by the library staff.

Tri County Hockey game results on Saturday were Old Timers 4, Pro Hardware 21. Maynooth 13, Birds Creek 3. On Sunday it was Wilberforce 10, Old Timers 5; Whitney 7, Birds Creek 6.

Have you heard about the Calico Christmas workshop being held in Wilberforce that is sponsored by Sir Sandford Fleming College? This workshop offers guidance and suggestions in the making of your own Christmas gifts, ornaments, etc. and using your initiative and ideas. Take this opportunity to surprise your family and friends with something different and distinctly yours. This is a one day course that takes place on November 18 at the Monmouth Community Centre from 1 to 3:30 p.m. For further information call 457-1680.

Carnarvon News

Mr. and Mrs. M.B. Windsor have arrived at their home in Tampa, Florida. Their son Craig drove them down there.

Mr. and Mrs. Stan Archer spent some time in London, Ontario with their two sons and their families. They also spent some time with Stan's relatives in Guelph.

Congratulations to Mr. and Mrs. Al Upton on the occasion of their 25th wedding anniversary on October 29th. Best wishes from the community.

Mr. and Mrs. Ross Harrison have left for their home in Fort Myers, Florida for the winter. Their home here is occupied again by Mr. and Mrs. Tom Young who have spent quite a few winters as my neighbours.

Many friends and relatives dropped in for a friendly chat and refreshments with Mr. and Mrs. Bill Gartshore of Halls Lake on Saturday, October 29 to wish them happiness and congratulate them

on their 50th wedding anniversary. May our village also add our best wishes to this well loved couple. A small dinner party was held in the evening at Pinestone for close relatives.

Mrs. Bill O'Reilly Jr. and her son of Campbell River, B.C. has been spending the past few weeks with Mr. and Mrs. Bill O'Reilly of Boskung.

There seems to be a lot of red caps on the move this week as men gather for next week's hunt, the topic of conversation being the ones that got away last year. We wish you all a good hunt and a safe one.

Mrs. Muriel Hewitt is spending a few days with Mrs. Minnie Dawson. The ladies are busy doing some quilting.

Mr. and Mrs. Jack Barnhart and Gail were at their daughter Lynn's in Peterborough on Sunday, then went on to Toronto on Monday.

Norland Natter

BY KELLY GRAHAM

Rain, rain, go away, come back another day! Preferably not for awhile, I'm beginning to forget what the sun looks like.

There will be a public meeting to discuss the new zoning by-law on November 5 at the Norland Community Hall. The meeting begins at 10 a.m. and everyone is welcome. Plan to attend.

Kevin Graham was the lucky winner of Shirley Harrison's free Wintario ticket last match.

If the weather has gotten you down here's a recipe to cheer you up:

Joy Juice
ingredients, 2 pkgs. cherry flavoured gelatin, 2 cups hot water, 1/2 cup sugar, 1/4 tspn. salt, 8 cups (2 qts.) cold water, 1/4 cup lemon juice, 2 bottles (8 oz. each) ginger ale. Dissolve gelatin in hot water. Add sugar and salt

and stir until dissolved. Add cold water, lemon juice, and ginger ale. Pour over cracked ice. Makes 12 servings.

Every Sunday morning from 10:30 - 12 and 12:00 to 1:30 the Norland Men's Recreational Hockey league plays at the Minden arena. Here are the results from last Sunday, October 23: 1st game, the Head Lake Taveeners over the Head Lake Generals 7-6, and the 2nd game, Scott's Excavators defeated Gostlin's Gravelers 12-11. Sounds like a good way to spend your Sunday.

Here are the euchre scores for Thursday, October 27: Men's high - Ross Faulkner, men's low - Paul Lightfoot, Tony Kenneth (tie), Ladies high - Ziggy Kawnsnick, ladies low - Inga Wassell; lone hands - Tom Bowins, Dorothy Brown (tie).

There will be a film shown at the Pioneer Baptist Church. Please turn to Page 10

Are your hard-earned dollars going up in smoke?

Then take a few minutes now and discover how adding electricity to your oil furnace can dramatically cut the cost of heating your home. If your oil furnace is in good condition, but you'd like it to run more economically, a dual-energy system combining oil and electricity may be just the answer. In fact, depending on how much electric heat you add, and how you operate your system, you could use as little as one tank of oil for an entire heating season!

An electric plenum heater, for example, will reduce the amount of oil your furnace uses by up to 75%. While adding a heat pump will cut oil use by 25 to 30%, and provide air conditioning in the summer for economical year-round comfort.

If your furnace does need replacing, an electric furnace or one of the other electric systems can heat your home cleanly, efficiently and economically.

If you'd like to know more about dual-energy and all-electric systems, write to Ontario Hydro, 620 University Ave., 4th Floor, Toronto M5G 1X6, and ask for our free booklet "Electric Heating Options for Your Home."

The few minutes you take now could add up to big savings this winter.

thank you

The Haliburton County Advisory Board would like to thank all persons, businesses and organizations that contributed to the C.N.I.B. to make another successful Campaign.

P. Ronald Barr, Campaign Chairman 27-B-2

death notice

BLAKE BARNES entered into rest suddenly at home in Wilberforce on Wednesday, October 26, 1983, in his 54th year. Beloved husband of Adele Ferguson and loving father of Sharon (Mrs. Barry Agnew) of Oshawa; Heather of Lindsay; Eric and Sheila at home. Proud grandfather of Jonathan. Dear brother of Raymond, Lloyd and Royce. Service was held at Wiggins Funeral Home, Bancroft, Saturday, October 29. Interment at South Wilberforce Cemetery. 31-P-2

in memoriam

COWEN - In loving memory of Lorne, who passed away October 31, 1981. This month comes with sad regret. It brings back a day we will never forget. You fell asleep without goodbye. Our memories of you will never die. We miss you more than anyone knows. As each day passes the emptiness grows. The tears we shed, we can wipe away. But the ache in our hearts will always stay. No one knows the grief we bear. When the family meets and you are not there. You left us so suddenly your thoughts unknown. But you left us memories we are proud to own. Lovingly remembered by Mom, Pop, wife Ena, daughter Michelle, brothers, sisters-in-law, nieces and nephews. 32-P-2

DACK - In loving memory of a dear brother, Willard J. Dack, who passed away November 4, 1974. There's a road of sweet remembrance. Where thoughts and wishes meet. We take that road in thought to-day. For the one we cannot meet. Sadly missed and ever remembered by sisters Millie, Mary, Madeline and niece Marilyn. 32-P-2

THE CLASSIFIED CAPER

Due to the Concern Caused by the opening of Abortion Clinics in Toronto testing the laws of our province it was considered appropriate to print a public appeal in favour of life. The persons listed hereafter have voluntarily offered their names for publication and their donations have paid the cost of publication. They wish to stand up and be counted for life.

WE CHOOSE LIFE!!

We the undersigned believe that each human life deserves the utmost respect from the time of Conception until Natural Death. We are convinced that human problems must be solved by loving and helping, not by killing.

"...all organisms, however large and complex they may be when full grown, begin life as a single cell. This is true of the human being, for instance, who begins life as a fertilized ovum..."
I Asimov, The Genetic Code, p.20
